Thank you for helping out!

Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

It is a secret known to but a few, yet no small use in the conduct of life, that if you fall into a man's conversation, the first thing you should consider is, whether he has a greater inclination to hear you, or that you should hear him.
-- Steele

A physician is not angry at the intemperance of a mad patient, nor does he take it ill to be railed at by a man in a fever. Just so should a wise man treat all mankind, as a physician treats a patient, and look upon them only as sick and extravagant.
-- Seneca

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
