Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

*"I have made good judgments in the past. I have made good judgments in the future."
 -- Dan Quayle*

					6		3	

Hall's Laws of Politics:
 1. The voters want fewer taxes and more spending.
 2. Citizens want honest politicians until they want something fixed.
 3. Constituency drives out consistency (i.e., liberals depend military spending, and conservatives social spending in their own districts).
