Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

If you use logic you can solve the puzzle without guesswork.

Need a little help? The hints page shows a logical order to solve the puzzle. Use it to identify the next square you should solve. Or use the answers page if you really get stuck.

I don't think I've ever worked so hard on something, but working on Macintosh was the neatest experience of my life. Almost everyone who worked on it will say that. None of us wanted to release it at the end. It was as though we knew that once it was out of our hands, it wouldn't be ours anymore.
-- Steve Jobs

If solid happiness we prize, Within our breast this jewel lies, And they are
 fools who roam; The world has nothing to bestow; From our own selves our joys
 must flow And that dear hut -- our home.
 -- Cotton

*A crusader's wife slipped from the garrison
 And had an affair with a Saracen.
 She was not oversexed,
 Or jealous or vexed,
 She just wanted to make a comparison.*
