Fill in the blank squares so that each row and each column contain all of the digits 1 thru 7.

The heavy lines surround areas (called cages) that contain groups of numbers that can be combined (in any order) to produce the result shown in the clue, with one of 4 arithmetical operations (+, -, x or ÷).

Numbers in cages may repeat, as long as they are not in the same row or column.

Fill in the blank squares so that each row and each column contain all of the digits 1 thru 7.
