Fill in the blank squares so that each row and each column contain all of the digits 1 thru 3.
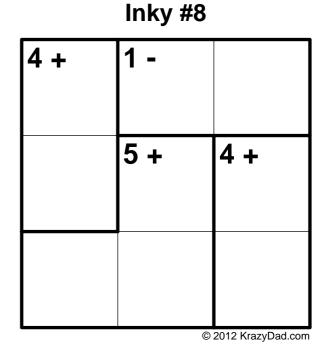

The heavy lines surround areas (called cages) that contain groups of numbers that can be combined (in any order) to produce the result shown in the clue, either using addition (+) or subtraction (-) as shown in the clue. For example, 12+ means you can add the values together to produce 12.

Numbers in cages may repeat, as long as they are not in the same row or column.
