*Oh, what tangled webs we weave
When we first practice to deceive.
-- Sir Walter Scott*

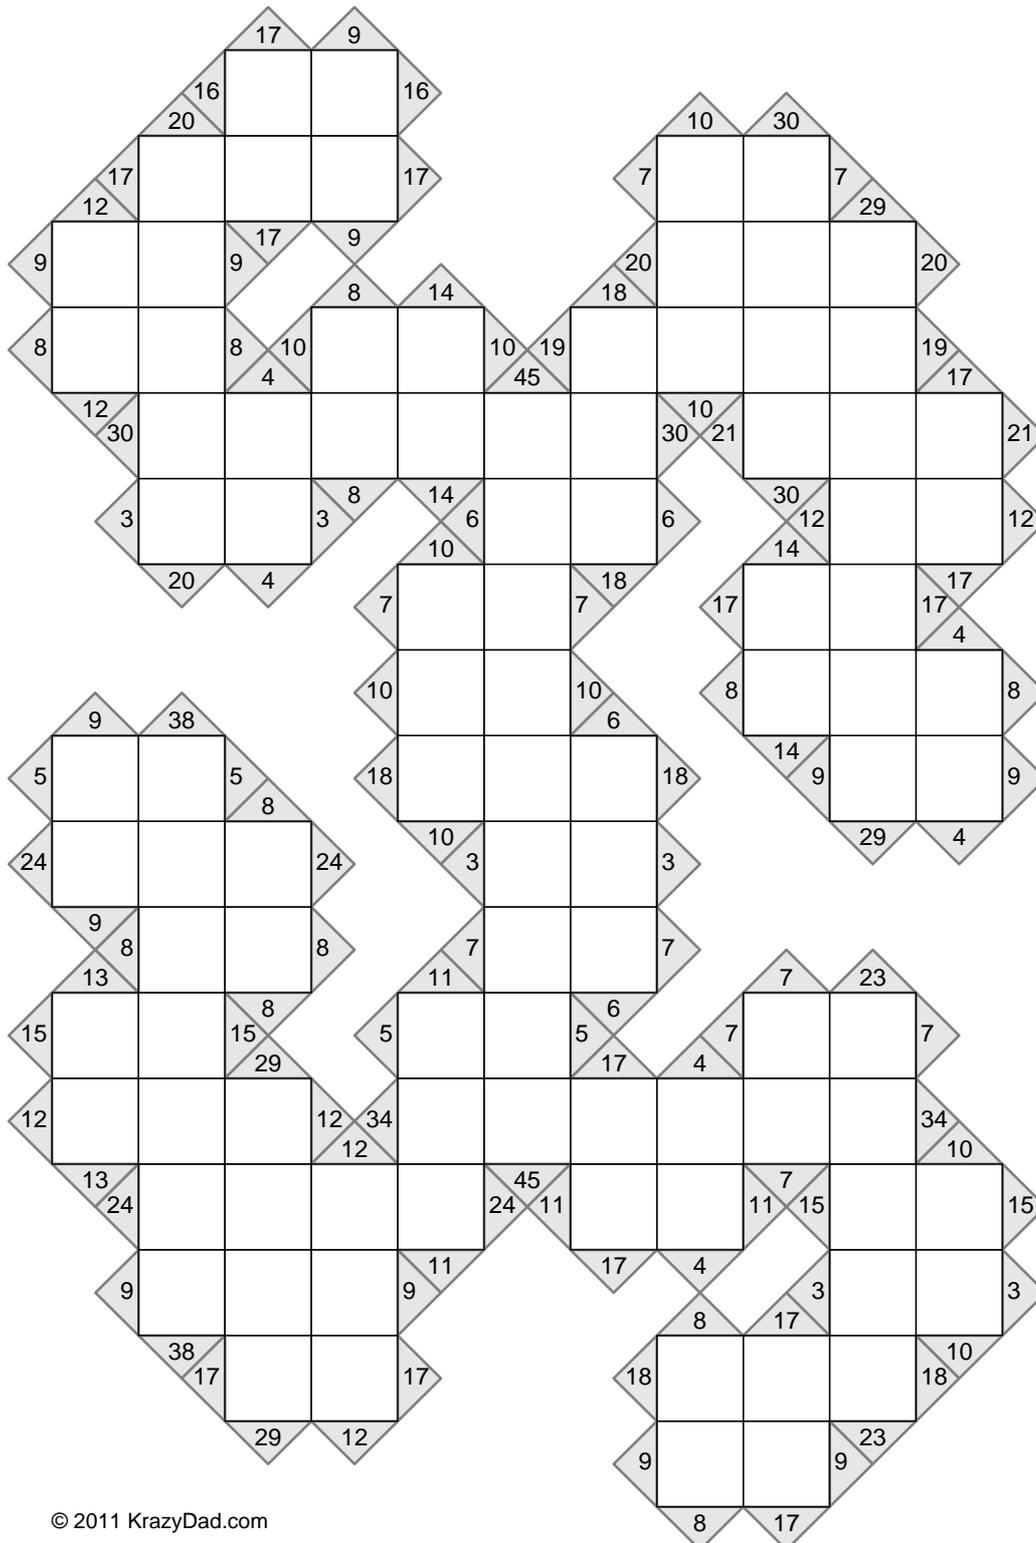

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

"What do you give a man who has everything?" the pretty teenager asked her mother.
 "Encouragement, dear," she replied.
