*Uneven economic and political development is an absolute law of capitalism.
 -- Nicolai Lenin*

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

The only way to get rid of temptation is to yield to it...I can resist
 everything but temptation.
 --Oscar Wilde
