Forget your opponents. Always play against par.
-- Sam Snead

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Faith in a holy cause is to a considerable extent a substitute for lost
 faith in ourselves.
 -- Eric Hojfer
