Kakuro puzzles are like a crossword between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

*Our doubts are traitors and make us lose the good we oft might win by
fearing to attempt.
-- Shakespeare*
