Kakuro puzzles are like a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

"I can resist anything but temptation."

There is nothing as cheap and weak in debate as assertion that is not backed by facts.

Handle all business ventures with discretion so you do not end up a loser.

The difference between science and the fuzzy subjects is that science requires reasoning, while those other subjects merely require scholarship. -- Luciano Long
