"A tree is an incomprehensible mystery."
-- Jim Woodring

Ability wins us the esteem of the true men; luck that of the people.
-- La Rochefoucauld

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Andrew's Amazing Pentacle:
No matter which direction you start, it's always against the wind coming back.

There's so much to say but your eyes keep interrupting me.

An honest God is the noblest work of man.

Knaves will thrive when honest politeness knows not how to live.
-- Shirley
