Help stamp out and abolish redundancy.

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Faith builds a bridge across the gulf of death. To break the shock blind  
 nature cannot shun, And lands though smooth on the further shore.  
 -- Young
