Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Green light in a.m. for new projects. Red light in P.M. for traffic tickets.

You can go wrong by being too skeptical as readily as by being too trusting.
