Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

A King that would not feel his crown too heavy for him, must wear it every day; but if he thinks it too light, he knoweth not of what metal it is made. -- Bacon

To err is human; to dodge, divine.
