You can tell it's going to be a rotten day when your birthday cake collapses from the weight of the candles.

Accursed ambition, how deadly I have brought you... John Dryden

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.
