Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

A pedestrian is a man who has two cars, a wife, and one or more teenage children.

"Contrivise," continued Tweedledee, "if it was so, it might be, and if it were so, it would be; but as it isn't, it can't; that's logic!" -- Lewis Carroll
