Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Laziness is the mother of nine inventions out of ten.  
-- Philip K. Saunders

The conqueror is regarded with awe; the wise man commands our esteem; but it is the benevolent man who wins our affection.
