Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

No problem is so formidable that you can't just walk away from it.

Death comes to all. But great achievements build a monument. Which shall endure until the sun grows cold.
-- Georg Fabricius
