Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

A poor man served by thee, shall make thee rich.
-- Mrs. Browning

I hold that man is in the right who is most closely in league with the future.
-- Henrik Ibsen
