Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

It's not whether you win or lose. It's how you place the blame.

Most of the mistakes of our life come from feeling when we ought to think and thinking when we ought to feel.
