Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

There's no real need to do housework -- after four years it doesn't get any worse.

A memorandum is written not to inform the reader but to protect the writer.  
-- Dean Acheson
