What's good enough for our ancestors is good enough for us.

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Ninety percent of the time things turn out worse than you thought they would.  
 The other ten percent of the time you had no right to expect that much.  
 -- Augustine
