Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

And, in the end, the love you take is equal to the love you make.

If you don't like the weather, move.

If history repeats itself, and the unexpected always happens, how incapable must man be of learning from experience.
