Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

One can't proceed from the informal to the formal to the formal by formal means.

May the Great Camel of Paradise bestow upon you and yours a drooping.

"Never underestimate the power of a small tactical nuclear weapon."

And, in the end, the love you take is equal to the love you make.
