Kakuro puzzles are like a crossword between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

The best thing about growing older is that it takes such a long time.

*For oh! so wilds do I love him That paradise itself were dim And joyless,
If not shared with him.
-- Moore*
