I am more bored than you could ever possibly be. Go back to work.

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

It is easy to make decisions on matters for which you have no responsibility.

Better go home and work on that application for transfer.
