6x6 Kakuro Puzzles by KrazyDad, Volume 12, Book 13

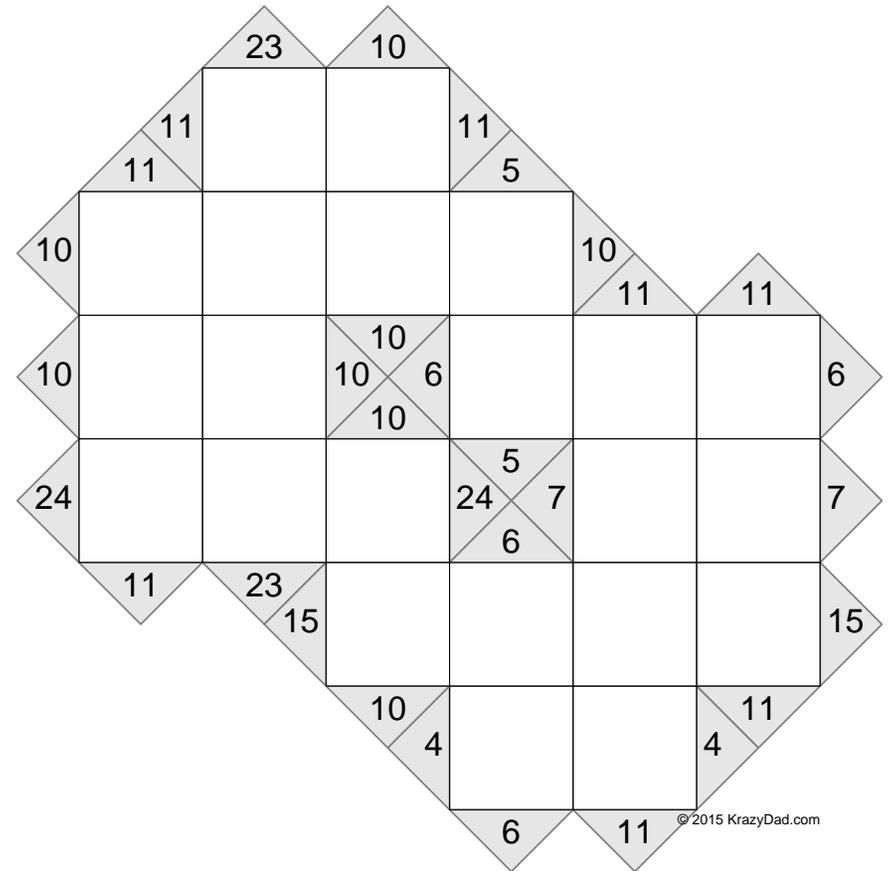

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

What goes up must come down - and can be expected to do so in the middle of your job.

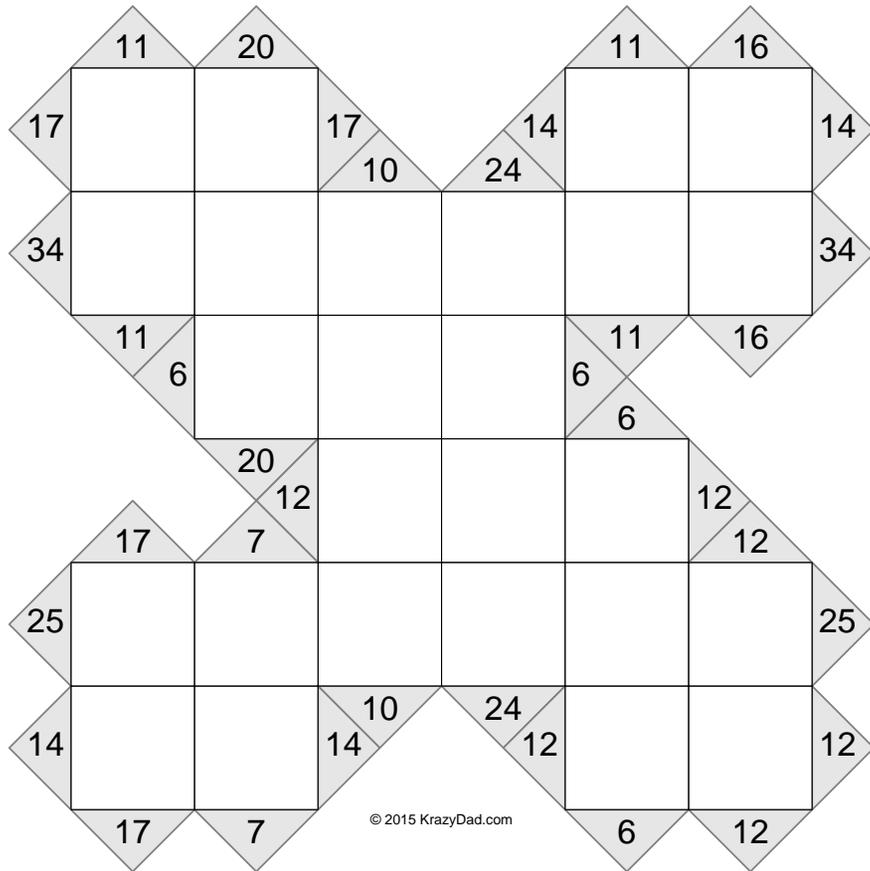

Three things only do slaves require, food, work, and their gods, and of the three their gods must not be touched -- else they grow restless. -- Proverbs for Killing
