Wir is cultured insolence.
-- Aristotle

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

Experience is the worst teacher: it gives the test before presenting the lesson.

The number of letters written to the editor is inversely proportional to the importance of the article.
-- Robert L. Marcus
