Never admit anything. Never regret anything. Whatever it is, you're not responsible.

Certainly there are things in life that money can't buy, but it's very funny -- Did you ever try buying them without money? -- Ogden Nash

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.
