Quick, sing me the BUDAPEST NATIONAL ANTHEM!!

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

A truly wise man never plays leapfrog with a Unicorn.

The importance of the man and his job, in that relative order, rises in direct proportion to the distance separating his audience from his home office.
