Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*Love is a passion which kindles honor into noble acts.
-- Dryden*

Man's rich with little, were his judgment true; Nature is frugal, and her wants are few; These few wants, answer'd bring sincere delights; But fools create themselves new appetites.
-- Young

59	45	38	76	46	39	60	47	77

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
