Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Scientists who dislike the restraints of highly organized research like to remark that a truly great research worker needs only three pieces of equipment: a pencil, a piece of paper, and a brain But they quote this maxim more often at academic banquets than at budget hearings.
-- Don Price

Forever floats that standard sheet! Where breathes the foe that falls before
 us, With freedom's soil beneath our feet, And Freedom's banner streaming o'er
 us,
 -- Joseph Rodman Drake

9	7	56	57	11	34	35	8	12
10	80	71	72	73	58	59	60	13

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
