Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*POLITICIAN: From the Greek 'poly' ('many') and the French 'tete' ('head' or 'face', as in 'retro-tete'; head to head or face to face). Hence 'polyteten', a person with two or more faces.
-- Martin Pitt*

*The intoxication of anger, like that of the grape, shows up to others, but hides us from ourselves, and we figure our own cause, in the opinion of the world, when we too passionately and eagerly defend it.
-- Colton*

70	63	2	37	31	27	12	25	9

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
