Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

I hope when you know the worst you will at once leap into the river and swim through handsomely, and not, weather-beaten by the divers bluffs of irresolution, stand shivering on the bank.
-- Suckling

Why does man kill? He kills for food. And not only food: frequently
 there must be a beverage.
 -- Woody Allen, "Without Feathers"

20	79	80	71	2	57	68	58	63
81	72	73	74	3	59	65	60	38

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
