Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

He that will not apply new remedies must expect new evils, for time is the  
 greatest innovator.  
 -- Francis Bacon

O: How many surrealists does it take to change a light bulb?  
 A: Two. One to hold the stubble and the other to fill the bathtub  
 with brightly colored machine tools.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
