Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

You recoil from the crude; you tend naturally toward the exquisite.

A priest was walking along the cliffs at Dover when he came upon two locals pulling another man ashore on the end of a rope. "That's what I like to see," said the priest. "A man helping his fellow man." As he was walking away, one local remarked to the other, "Well, he sure doesn't know the first thing about shark fishing."

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
