Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Want to help me replace my broken pencil sharpener?
 You can make a \$10 donation to the San Joaquin Hills
 Or by mail: KrazyDad, P.O. Box 303 San Ysidro, CA 91933 USA
 Thank you!

Talking is a digestive process which is absolutely essential to the mental
 constitution of the man who does not read books. A full mind must have talk, or
 it will rot.
 -- William Matthews

A house is never perfectly furnished for enjoyment, unless there is a child
 in it rising three years old, and a kitten rising six weeks.
 -- Summey

43	71	80	81	44	35	72	73	36
2	74	75	76	37	26	38	25	16

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the order of the squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
