Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Death comes not to the living soul, nor age to the loving heart."  
-- Placido Cury

(a) Completion of any task within the allocated time and budget does not bring credit upon the performing personnel -- it merely proves the task was easier than expected; (b) failure to complete any task within the allocated time and budget proves the task was more difficult than expected and requires promotion for those in charge.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
