Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Nothing has more strength than dire necessity."
-- Euripides

Making files is easy under the UNIX operating system. Therefore, users tend to create numerous files using large amounts of UNIX space. It has been said that the most frequent UNIX system administrator's message-of-the-day telling users to clean up their files is "System V 2 administrator's guide".

Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

63	76	77	78	71	79	67	64	41
28	26	13	14	20	19	46	45	17
39	40	31	33	30	18	55	52	48
37	35	32	34	29	15	16	53	50

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
