Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"All really great lovers are articulate, and verbal seduction is the surest road to actual seduction."  
-- Marisa Menden

God is really only another artist. He invented the giraffe, the elephant and the car. He has no real style. He just goes on trying other things. -- Pablo Picasso

The primary cause of failure in electrical appliances is an expired warranty. Often, you can get an appliance running again simply by changing the warranty expiration marker. -- Dave Barry, "The Turning of the Screw"

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
