Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

God is really only another artist. He invented the giraffe, the elephant and the cat. He has no real style. He just goes on trying other things.
 -- Pablo Picasso

Simple diet is best; for many dishes bring many diseases; and rich sauces are worse than even heaping several meats upon each other.
 -- Pliny

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
