Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

It is unwise to do unto others as you would that they do unto you. Their tastes may not be the same.
— George Bernard Shaw

It is always preferable to visit home with a friend. Your parents will not be pleased with this plan, because they don't want you to be lonely and because in the presence of your friends they will have to act like mature human beings.
— Playboy, January 1983

79	25	40	41	71	72	48	49	80
34	32	39	65	66	60	43	42	35

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
