Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*Science committs suicide when it adopts a creed.
 -- Thomas Henry Huxley*

*Few people now believe in the devil, but very many enjoy behaving as their
 ancestors behaved when the devil was a reality as unquestionable as his
 Opposite Number.*

Pride makes us esteem ourselves; vanity makes us desire the esteem of others. It is just to deny, as Dean Swift has done, that a man is too proud to be vain.
-- Blair

How much does it cost to entice a dope-smoking UNIX system guru to Dayton?
-- Brian Boyle, UNIXWORLD's First Annual Salary Survey

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
