Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"To love is to admire with the heart; to admire is to love with the mind."  
-- Theophile Gautier

Whosoever commands the sea commands the trade; whosoever commands the trade  
of the world commands the riches of the world; and, consequently the world  
itself.  
-- Sir Walter Raleigh

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
