Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

As good almost kill a man; as kill a good book; who kills a man, kills a
 reasonable creature, God's image; but he who destroys a good book, kills
 reason itself.
 -- Milton

64	20	48	41	49	42	43	14	65
53	66	50	44	51	45	52	75	67

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
