Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Xerox: A trademark for a photocopying device that can make rapid reproductions of human error perfectly.

Children are natural mimics who act like their parents despite every effort to teach them good manners.

Give us, O give us, the man who is cheerful in his work! Be his occupation what it may, he is equal to any of those who follow the same pursuit in silent solemnness. He will do more in the same time -- he will do it better -- he will persevere longer.  
-- Carlyle

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
