Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

 Thank you!

I have known a vast quantity of nonsense talked about bad men not looking
 you in the face. Don't trust that conventional idea. Dishonesty will out-
 stare honesty out of court. It is the only thing to be got by it.
 - Charles Dickens

58	34	1	40	9	41	2	59	49
60	61	62	6	4	7	63	77	78

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
