Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

... so long as the people do not care to exercise their freedom, those  
 the wish to manage will do so; for tyrants are fierce and ardent,  
 and will drive themselves in the most cruel manner upon the  
 and otherwise, to put shackles upon sleeping men.  
 -- Voltaire de Cleyre

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the order of the squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
