Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

People are never so ready to believe you as when you say things in dispraise  
 of yourself; and you are never so much annoyed as when they take you at your  
 word.  
 -- Somerset Maugham

"On Halloween, the parents sent their kids out looking like me."  
 -- Rodney Dangerfield

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
