Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Critics are a kind of freebooters in the republic of letters -- who, like  
 den, gods, and artists, like gamblers, are simple, get a substance by  
 some, and then live as gamblers, and are simple, get a substance by  
 robbing them of their ventures and rewards their progress to maturity.  
 --Washington Irving

55	39	34	71	68	50	3	56	40

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
